LIMITATIONS ON WARRANTY

Structural Limitations: ONLY the following Mineral-Based Composite may be installed in contact with the ground or submersion in water when a project design requires those conditions; Voyage, Vault, Frontier, and Pioneer.

Stain Limitations: The Deckorators Eovations (Mineral Based Composite, MBC) Cladding products are not stain-proof. Care must be taken to remove all staining agents with water and a mild household cleaner within forty-eight (48) hours of exposure. Stains resulting from abrasive compounds of acidic or basic pH, strong solvents, oil-based paints or stains, metallic rust and other abnormal items not commonly used on cladding are excluded from coverage under this Warranty; Excluded stains include but are not limited to pet or human bodily fluids such as blood, vomit, urine or feces, and fungicides, bactericides, biocides and chemical-based plant food. Mold and mildew can settle and grow on any outdoor surface and, if not properly cleaned, can stain that surface. Staining associated with mold or mildew that is not properly cleaned within one week of first appearance is not covered under this Warranty. If stains persist, you will be required to produce documentation that you attempted to have the cladding professionally cleaned at least one time prior to making a claim under this Warranty.
