Colorado Custom Covers & Decks has been a top provider of outdoor living solutions for clients in the Front Range and surrounding mountain communities since 2016. Moeller and his team specialize in building pergolas, water features, fireplaces, and firewalls, with a strong focus on decks and covers.

Moeller can serve as a valuable source on topics such as:

INTEGRATED WATER FEATURES

Homeowner interest in hot tubs and swim spas is on the rise. Moeller can offer technical guidance for installing these water features flush with the deck, along with design insights for effectively incorporating them into the outdoor living space.

COLOR, PATTERN, AND CONTRAST

Moeller and his team strive to enhance their deck projects by leveraging unique color combinations, deck patterns, and multiple borders. He can provide tips for using these methods to add definition and contrast to the outdoor living space.

DESIGNING FOR VARIABLE CLIMATES

With clients across Colorado's mountainous regions, where weather patterns are often intense and unpredictable, Moeller can speak to the importance of selecting durable, versatile decking materials capable of withstanding such conditions.
