EXCURSION DECKING

FEATURING SURESTONE™ TECHNOLOGY

SURESTONE™ TECHNOLOGY

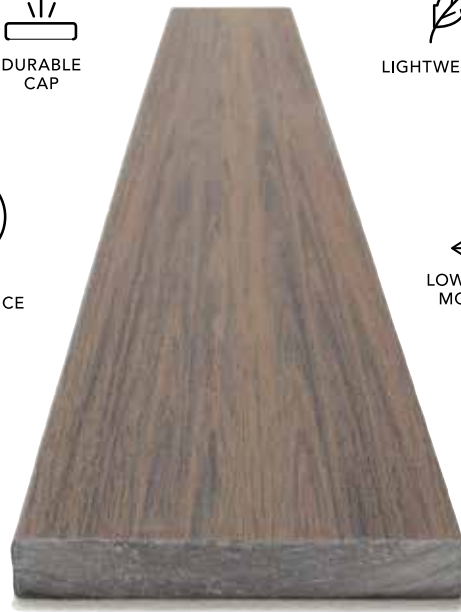

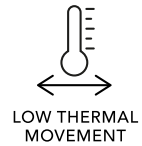

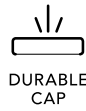

There's no uncertainty here.

From the first plank to every moment after, the possibilities are endless. And the performance is absolute. This is decking done differently through mineral-based ingenuity. With a durability that embraces the seasons and peace of mind that lasts a lifetime, any outdoor living space can now be transformed into a year-round sanctuary.

And by combining distinctly natural wood-grain patterns with rich colors, it's never been easier for your outside space to become an extension of you.

A space that must be seen, touched, and stood upon to be believed. The decking bar has been raised and the difference is unmistakable.

You can be sure of it.

RECOMMENDED FASTENERS:

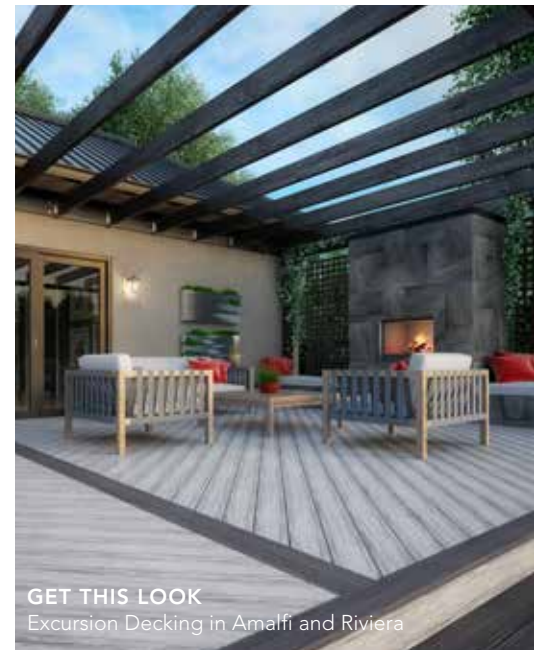

Stowaway™ Hidden Fasteners discreetly secure your composite deck boards without seeing the screws.

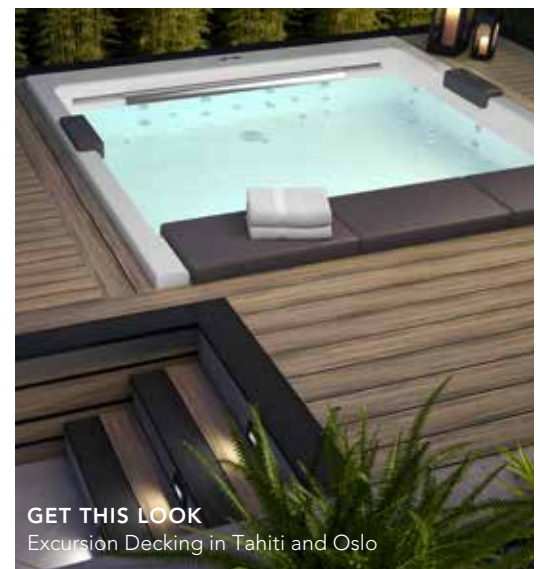

Pro Plug® Fastening System is designed to drive in deck screws without scratching the composite deck surface, allowing you to camouflage the screw heads completely.

Colour-matched screws also available.
